

CSS Gradients Guide

Complete Reference with Interactive Examples

1. Linear Gradients

Linear gradients create smooth color transitions in a straight line across an element. You can specify direction using degrees, keywords, or the "to" keyword.

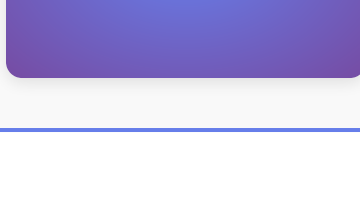

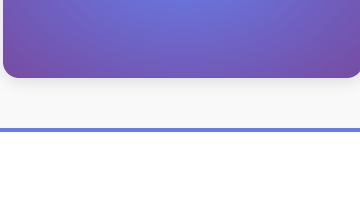

```
/* Basic syntax */ background: linear-gradient(direction, color1, color2); /* Horizontal (90deg) */ background: linear-gradient(90deg, #667eea, #764ba2); /* Vertical (180deg) */ background: linear-gradient(180deg, #667eea, #764ba2); /* Diagonal (45deg) */ background: linear-gradient(45deg, #667eea, #764ba2); /* Using keywords */ background: linear-gradient(to right, #667eea, #764ba2); background: linear-gradient(to bottom right, #667eea, #764ba2);
```

2. Radial Gradients

Radial gradients create color transitions radiating from a center point outward. Perfect for spotlight effects and circular color transitions.

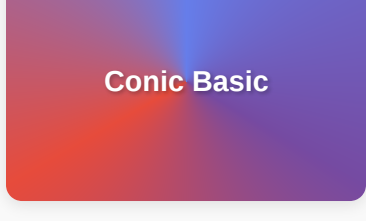

```
/* Basic syntax */ background: radial-gradient(shape size, color1, color2); /* Circle */ background: radial-gradient(circle, #667eea, #764ba2); /* Ellipse (default) */ background: radial-gradient(ellipse, #667eea, #764ba2); /* Circle with size */ background: radial-gradient(circle 100px, #667eea, #764ba2); /* At specific position */ background: radial-gradient(circle at 25% 25%, #667eea, #764ba2);
```

3. Conic Gradients

Conic gradients create color transitions that rotate around a center point. Excellent for color wheels, pie charts, and radial color effects.

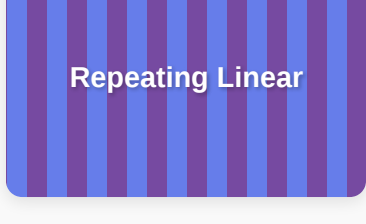

```
/* Basic syntax */ background: conic-gradient(color1, color2, color3); /* With angle */ background: conic-gradient(from 45deg, red, yellow, lime); /* From specific position */ background: conic-gradient(from 0deg at 50% 50%, red, blue); /* Repeating conic */ background: repeating-conic-gradient(red 0deg, blue 90deg);
```

4. Repeating Gradients

Repeating gradients tile a gradient pattern multiple times. Create striped backgrounds, patterns, and repeating color transitions.

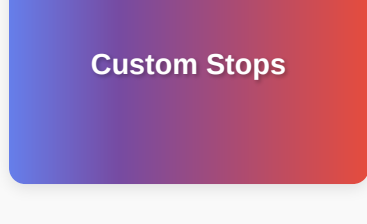

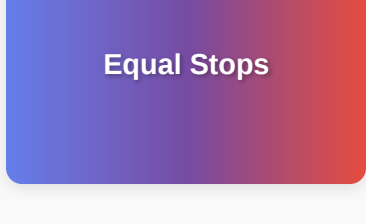

```
/* Repeating linear */ background: repeating-linear-gradient(90deg, red 0px, red 10px, blue 10px, blue 20px); /* Repeating radial */ background: repeating-radial-gradient(circle, red 0px, red 10px, blue 10px, blue 20px); /* With percentages */ background: repeating-linear-gradient(45deg, #667eea 0%, #667eea 10%, #764ba2 10%, #764ba2 20%);
```

5. Color Stops

Control where colors transition in a gradient using color stops. Specify positions as percentages or absolute units.

```
/* Equal stops (default) */ background: linear-gradient(90deg, red, blue); /* Custom stops with percentages */ background: linear-gradient(90deg, #667eea 0%, #764ba2 50%, #e74c3c 100%); /* Custom stops with pixels */ background: linear-gradient(90deg, red 0px, blue 50px, green 100px); /* Multiple colors at same position */ background: linear-gradient(90deg, red 0%, red 50%, blue 50%, blue 100%); /* No position specified */ background: linear-gradient(90deg, red, yellow, lime, cyan, blue);
```

6. Gradient Directions

Specify gradient direction using degrees, keywords, or the "to" keyword for precise control over gradient flow.

```
/* Using degrees (0-360) */ 0deg - top to bottom (vertical) 90deg - left to right (horizontal) 180deg - bottom to top (vertical) 270deg - right to left (horizontal) 45deg - diagonal (top-left to bottom-right) /* Using keywords */ to top, to bottom, to left, to right, to top left, to top right, to bottom left, to bottom right /* Examples */ background: linear-gradient(0deg, red, blue); /* vertical */ background: linear-gradient(90deg, red, blue); /* horizontal */ background: linear-gradient(to bottom right, red, blue); /* diagonal */
```

7. Animated Gradients

Create dynamic gradient animations by changing the background-size and using keyframe animations.

```
/* Animated gradient */ .animated { background: linear-gradient(45deg, #667eea, #764ba2, #e74c3c); background-size: 200% 200%; animation: gradient-shift 3s ease infinite; } @keyframes gradient-shift { 0% { background-position: 0% 50%; } 50% { background-position: 100% 50%; } 100% { background-position: 0% 50%; } }
```

8. Text Gradients

Apply gradients to text using background-clip and -webkit-text-fill-color for stunning text effects.

```
/* Text gradient */ .gradient-text { background: linear-gradient(135deg, #667eea, #764ba2); -webkit-background-clip: text; -webkit-text-fill-color: transparent; background-clip: text; } /* Important: Order matters - webkit properties must come before standard */
```

Rainbow Text

9. Gradient Backgrounds

Use gradients as backgrounds for containers, sections, and full-page designs to create visual depth.

```
/* Full element gradient */ background: linear-gradient(135deg, #667eea 0%, #764ba2 100%); /* Multiple gradient layers */ background: linear-gradient(135deg, rgba(102, 126, 234, 0.8), rgba(118, 75, 162, 0.8)), url('background-image.jpg'); background-size: cover; /* Semi-transparent gradient overlay */ background: rgba(102, 126, 234, 0.1);
```

Real-World Projects

Project 1: Gradient Card Collection

Modern cards with gradient headers and hover effects.

```
.card-gradient { border-radius: 12px; overflow: hidden; box-shadow: 0 4px 12px rgba(0,0,0,0.1); transition: all 0.3s ease; } .card-header { height: 120px; background: linear-gradient(135deg, #667eea 0%, #764ba2 100%); } .card-gradient:hover { transform: translateY(-5px); box-shadow: 0 12px 24px rgba(0,0,0,0.15); }
```

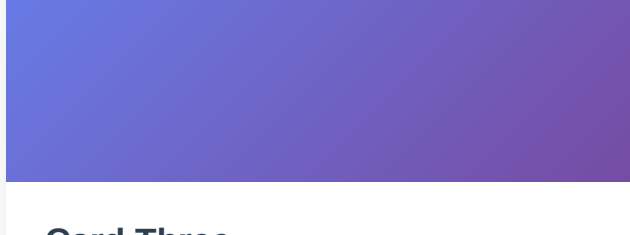

Card One

Beautiful gradient header with smooth transitions

Card Two

Hover to see the elevation effect

Card Three

Modern gradient design pattern

Project 2: Gradient Button Collection

Stylish buttons with gradient backgrounds and hover effects.

```
.btn-gradient { padding: 12px 30px; border: none; border-radius: 6px; cursor: pointer; font-weight: bold; color: white; background: linear-gradient(135deg, #667eea, #764ba2); transition: all 0.3s ease; } .btn-gradient:hover { transform: translateY(-2px); box-shadow: 0 8px 16px rgba(102, 126, 234, 0.4); }
```

Primary Secondary Tertiary

Project 3: Hero Section

Full-width hero section with gradient background.

```
.hero-section { background: linear-gradient(135deg, #667eea 0%, #764ba2 50%, #e74c3c 100%); padding: 60px 40px; border-radius: 12px; color: white; text-align: center; } .hero-title { font-size: 2.5em; font-weight: bold; margin-bottom: 15px; }
```

Experience Beautiful Gradient Design

Project 4: Gradient Text Effect

Eye-catching text with gradient color effects.

```
.gradient-text { background: linear-gradient(135deg, #667eea, #764ba2); -webkit-background-clip: text; -webkit-text-fill-color: transparent; background-clip: text; font-size: 2.5em; font-weight: bold; }
```
