

CSS Rounded Corners Guide

Complete Reference with Interactive Examples

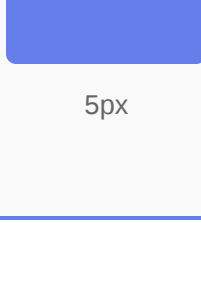

1. border-radius Property

The border-radius property rounds the corners of an element. It accepts pixel values, percentages, or a combination of values.

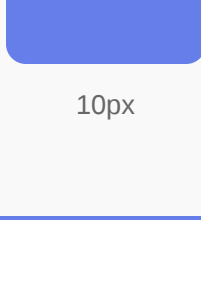

```
/* Single value - applies to all corners */ border-radius: 10px; /* Two values - top-left/bottom-right, top-right/bottom-left */ border-radius: 10px 20px; /* Three values */ border-radius: 10px 20px 30px; /* Four values - top-left, top-right, bottom-right, bottom-left */ border-radius: 10px 20px 30px 40px;
```

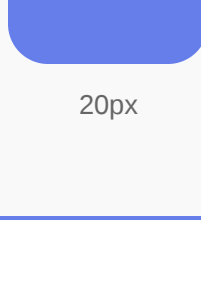

0px

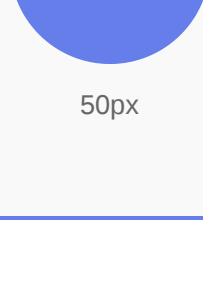

5px

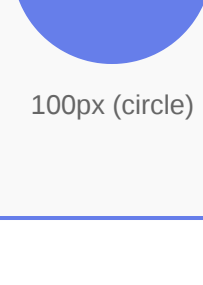

10px

20px

50px

100px (circle)

2. Percentage Values

Using percentages allows responsive rounded corners that scale with the element size.

```
border-radius: 25%; /* Slight rounding */ border-radius: 50%; /* Perfect circle (on squares) */ border-radius: 100%; /* Full rounding */
```

25%

50%

100%

3. Individual Corner Radius

Round specific corners using individual properties: border-top-left-radius, border-top-right-radius, border-bottom-left-radius, border-bottom-right-radius.

```
border-top-left-radius: 30px; border-top-right-radius: 30px; border-bottom-left-radius: 30px; border-bottom-right-radius: 30px;
```

Top-Left

Top-Right

Bottom-Left

Bottom-Right

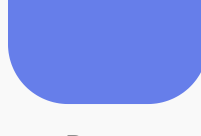

4. Combined Corner Patterns

Combine individual corners using shorthand notation to create specific patterns.

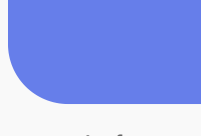

```
/* Rounded top only */ border-radius: 30px 30px 0 0; /* Rounded bottom only */ border-radius: 0 0 30px 30px; /* Rounded left only */ border-radius: 30px 0 0 30px; /* Rounded right only */ border-radius: 0 30px 30px 0;
```

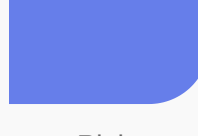

Top

Bottom

Left

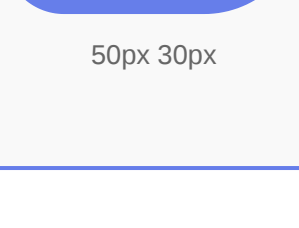

Right

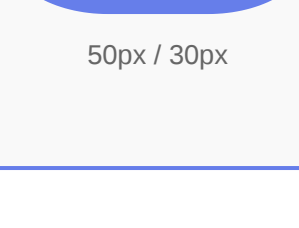

5. Elliptical Radius

Use two values separated by a slash to create elliptical corners with different horizontal and vertical radii.

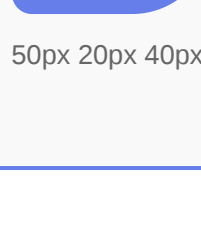

```
/* Horizontal / Vertical */ border-radius: 50px / 30px; /* All corners: horizontal 50px, vertical 30px */ border-radius: 50px / 30px; /* Individual corners with ellipse */ border-radius: 50px 20px 40px 10px / 30px 25px 20px 15px;
```

50px 30px

50px / 30px

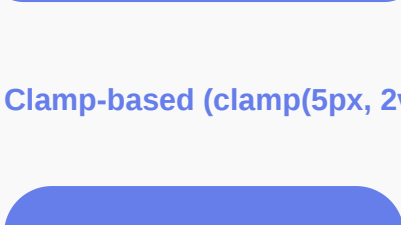

50px 20px 40px 10px

6. Responsive Rounded Corners

Use percentages or CSS functions like clamp() to create responsive rounded corners that adapt to different screen sizes.

```
/* Percentage-based */ border-radius: 5%; /* Using clamp() function */ border-radius: clamp(5px, 2vw, 30px); /* Viewport-width based */ border-radius: 5vw;
```

Percentage-based (5%):

Clamp-based (clamp(5px, 2vw, 30px)):

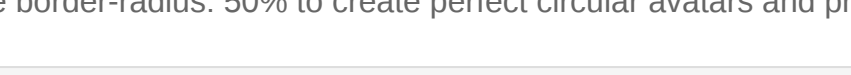

7. Button Styles

Different border-radius values create distinct button styles, from sharp to fully rounded pills.

```
.btn-sharp { border-radius: 0; } .btn-subtle { border-radius: 4px; } .btn-rounded { border-radius: 20px; } .btn-pill { border-radius: 50px; } .btn-circle { border-radius: 50%; }
```

Button Examples:

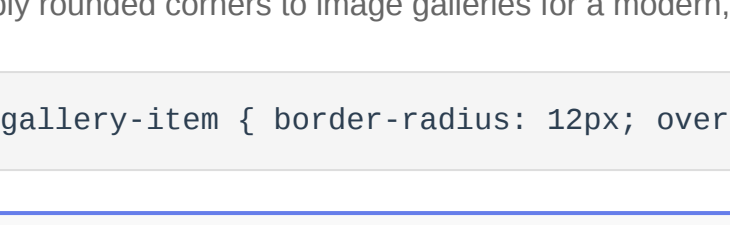

8. Avatar & Profile Images

Use border-radius: 50% to create perfect circular avatars and profile images.

```
.avatar { width: 80px; height: 80px; border-radius: 50%; }
```

Avatar Examples:

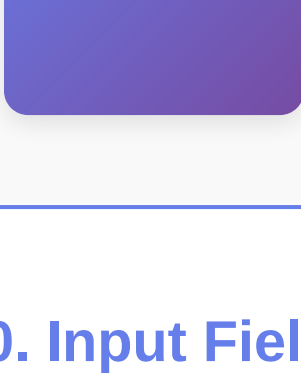

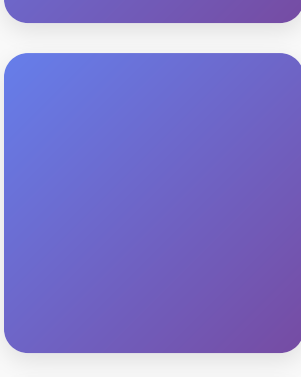

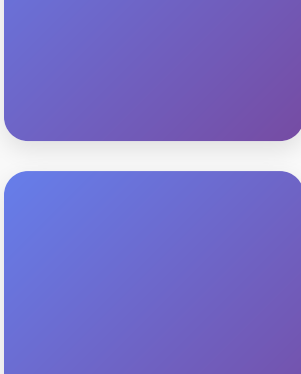

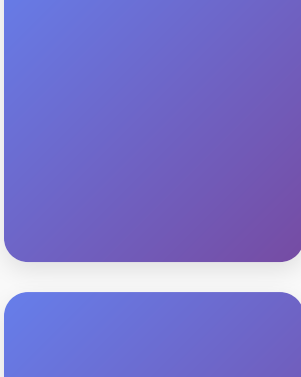

9. Image Gallery

Apply rounded corners to image galleries for a modern, polished appearance.

```
.gallery-item { border-radius: 12px; overflow: hidden; box-shadow: 0 4px 12px rgba(0,0,0,0.1); }
```

Image Gallery:

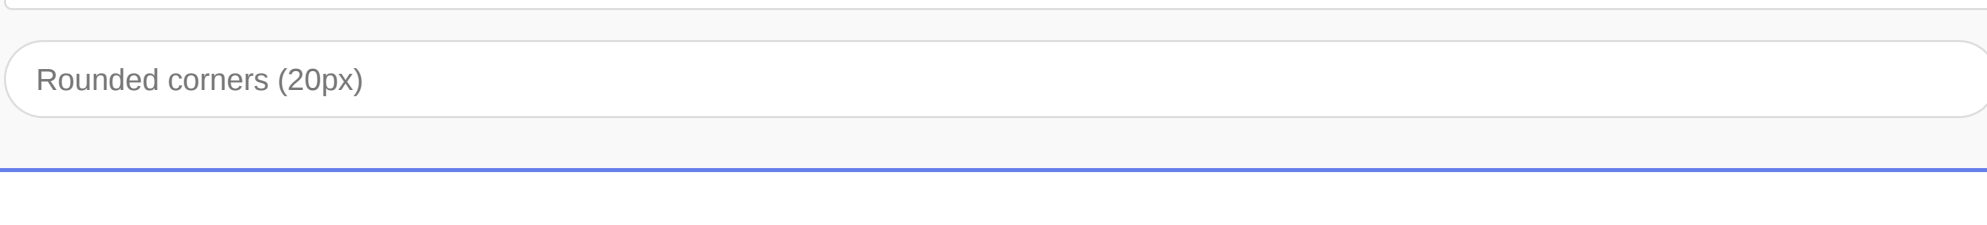

10. Input Field Styles

Different input field styles using various border-radius values for different design systems.

```
.input-sharp { border-radius: 0; } .input-subtle { border-radius: 4px; } .input-rounded { border-radius: 20px; }
```

Input Examples:

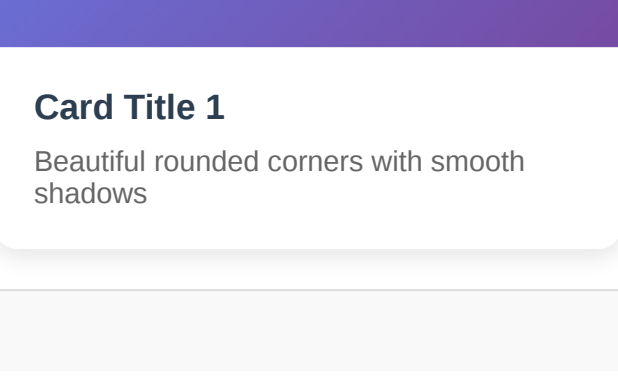

Real-World Projects

Project 1: Card Collection

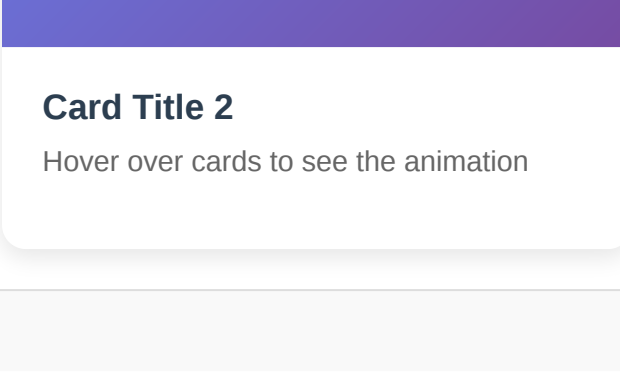

A modern card layout with rounded corners, shadows, and hover effects.

```
.card-item { border-radius: 12px; overflow: hidden; box-shadow: 0 4px 12px rgba(0,0,0,0.1); transition: transform 0.3s ease; } .card-item-image { border-radius: 12px 12px 0 0; height: 180px; }
```

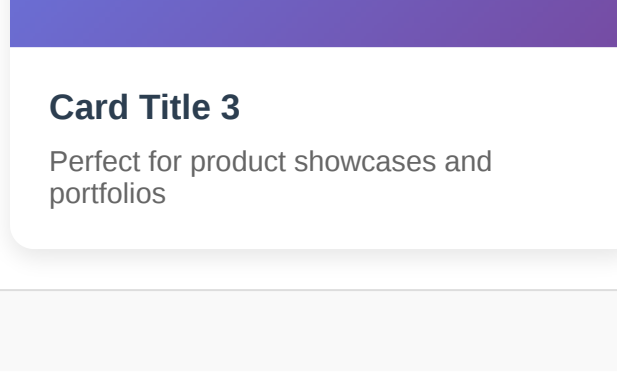

Card Title 1

Beautiful rounded corners with smooth shadows

Card Title 2

Hover over cards to see the animation

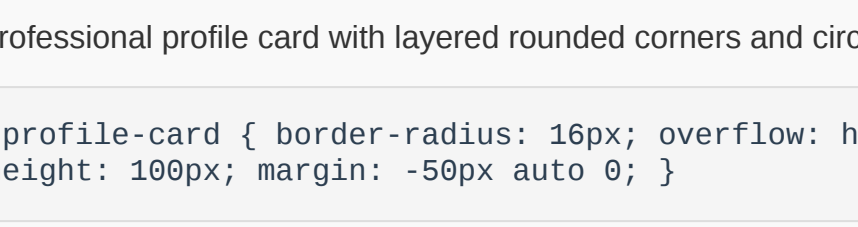

Card Title 3

Perfect for product showcases and portfolios

Project 2: Icon Button Collection

Icon buttons with adaptive rounding that become circles on hover.

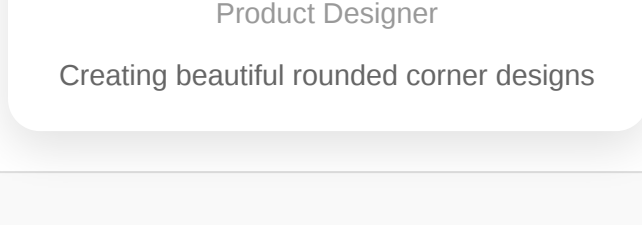

```
.icon-btn { border-radius: 12px; transition: all 0.3s ease; } .icon-btn:hover { border-radius: 50%; }
```

Project 3: Profile Card

A professional profile card with layered rounded corners and circular avatar.

```
.profile-card { border-radius: 16px; overflow: hidden; } .profile-avatar { border-radius: 50%; width: 100px; height: 100px; margin: -50px auto 0; }
```
